## Beautiful alpine walking on the best of the Mont Blanc Circuit

The circuit of Mont Blanc is one of the finest walking routes in the Alps. It is in reality a series of paths linking the seven valleys that surround the highest mountain in Western Europe, Mont Blanc. To complete the whole circuit normally takes a fortnight, but for those with less time, this one-week Exodus tour takes in the most outstanding sections with beautiful mountain highlights each day.

Throughout the trip we are based in a delightful chalet with dramatic views of Mont Blanc and use private buses to travel out each day to re-join the next stage of our walk covering beautiful sections of the famous circuit. You will hike 55 kms over 5 days, or roughly 5-7 hours/day. At the end of each day we return home for afternoon tea or for those who wish a dip in the chalet's bubbling Jacuzzi.\*

## Peaceful coastal cycling routes along the spectacular Dalmatian coastline.

Known to have the clearest waters in the Mediterranean, and undoubtedly packed with historic and cultural interest, the Dalmatian Coast is one of the true wonders of Europe.

We follow some of the best cycling routes the area has to offer with much of the tour taking place on the long and beautiful islands of Hvar and Korcula, travelling by ferry between the islands. The scenery alternates between seaside villages, tiny mediaeval towns and lovely pebble bays. We end our journey in the fascinating UNESCO city of Dubrovnik. We have two nights here to soak up the atmosphere of this uniquely preserved city, aka "King's Landing". Hope you GOT that.
